

What is the PEBB email subscription service?

The PEBB Program regularly mails newsletters and other materials to help subscribers stay informed about their health coverage. The email subscription service replaces some of the general mailings the PEBB Program sends. This doesn't include any communications from health plans or providers.

- **If I sign up, will all my PEBB communications be sent by email?**

No. The PEBB Program will continue to send some communications by mail as required by law.

- **If I sign up, can I change back to receiving paper mail later?**

Yes. You can change your preference any time. See Benefits user guides for instructions on changing your subscription preference.
